### **DETAILED ACTION**

1. This Office Action is in response to Applicant's amendment filed December 08, 2004. Claims 26-28 have been amended. Claims 29-30 have been canceled. New claim 38 has been added.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 103***

3. Claims 26-30 are rejected under 35 U.S.C § 103(a) as being unpatentable over Bolgiano et al. (US Patent No. 5,614,914) in view of Drane et al. (US Patent No. 6,522,890).

#### **Claim 28 :**

Bolgiano et al. discloses a method of geolocating a mobile appliance operatively communicating with at least one base station in a first communication system from a plurality of reference signal sources by TDOA including the improvement wherein the signals from the reference signal sources are not detected by the locating station. The reference fails to disclose the improvement wherein the mobile appliance is not synchronized with the reference signal sources. However, it would have been obvious to one skilled in the art that a tracking system using TDOA techniques can be a synchronized or unsynchronized network as desired. This concept well known as taught in Drane et al. Therefore, a skilled artisan would have readily

recognized modify the system to use unsynchronized network in Bolgiano because this technique is well known in the art.

*Allowable Subject Matter*

4. Claims 1-27 and 31-37 allowed.

5. Claim 38 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Remarks*

6. Applicant's arguments with respect to claim 28 have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2636

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
